

AUSTRALIA DAY 2011

Here is a short report from our Australia Day run. The venue this year was the North Cairns Reserve. This was chosen basically because we could have the area to ourselves and also located nearby were the toilets.

It was good to see our trailer out and about again, and thanks to Andrew and Fiona for bringing it along.

The weather gods were really on our side. You can probably count on one hand how many sunny days there have been in the last ten years on Australia Day. So... ..it was time to drop the top.

The cooks were in full swing, and what better way to celebrate the day with a good old Aussie BBQ.

It was a good roll up of members. A head count showed 34 adults and 9 children.
Pretty good for a January event. There were also 15 classic cars to look at,
including some that I hadn't seen before.

And thanks goes to Bob for tidying up the area. (which the council should have done).

There was even a red “stingray” that I hadn’t seen before too!!!

Some of us got into deep and meaningful discussions....

And for others, the day was just all a bit too much.

And of course, you can't have an Australia Day without a Holden or two....., or three.....

So once again, I would like to thank Andrew , Fiona and Bob for helping out and organising things before and on the day and also to everyone who came along.
